GREASE INTERCEPTOR REQUIREMENTS

1. **Fill out a Building Application.** All application must be completed with contractor and owner information. Licensed contractor information will be verified.
2. **Submit four (4) sets of plans indicating:**
 - All gray water producing fixtures.
 - Where the water is coming from and going to, i.e. to and from the interceptor.
 - Location of interceptor.
 - How/where the gray water line hooks up to the combined sewer.
 - Note any internal plumbing changes.
 - Contact the city for standard plans for installation purposes.
 - Costs: New Commercial \$300.00.

The plans may be hand drawn if architectural drawings are unavailable. Indicate plans for:

- (1.) WWTP – Office Copy
 - (2.) Building Dept. – Office Copy
 - (3.) Return to Applicant/Business (for notes, i.e. Job Copy, to be available to inspector performing inspection when requested from applicant)
3. Attach Grease Interceptor design of tank being used.
 4. Attach business card or provide phone number and name of contact person.
 5. Obtain FOG Ordinance handout from Public Works for location, design, and sizing criteria information (if needed).
