Grantor may, at its cost, perform fill and grading activities in the

Easement Area, and in doing so, Grantor shall fill and grade the Easement Area to create a level grade at the common boundary between the Grantor Property and the Benefitted Property.

If Grantor undertakes such grading and fill efforts, Grantor shall have a limited temporary easement over the south fifty feet (50') of the Benefitted Property to perform this work, and all such work by Grantor will be subject to the same requirements and conditions as are imposed by this Agreement upon Grantee with respect to any work that may be performed by Grantee in the Easement Area. These requirements include, without limitation, following the recommendation of Grantee's geotech consultant contained in any geotech report provided by Grantee to Grantor within the aforementioned thirty (30) day notice period.

As part of Grantor's performance of work under this Section 6.3, Grantor shall replace the agricultural ditch serving portions of the Benefitted Property and currently located on the northern portion of Grantor's Property and the southern portion of the Grantee's Property with a piped conveyance to a location that straddles the common boundary line between Grantor's Property and the Benefitted Property. C. North Owner and South Owner both intend to develop their respective properties, and South Owner and North Owner have agreed to enter into this Reciprocal Stormwater Conveyance Easement (the “**Easement**”) for the mutual improvement and benefit of their respective properties.

D. In consideration of the mutual covenants set forth herein, the parties hereto grant and/or agree as follows:

GRANTS AND AGREEMENTS

1. North Owner's Grant. North Owner hereby grants and conveys the following nonexclusive, perpetual easement to South Owner to run with and benefit South Owner's Property, and to burden the North Owner's Property: an easement across, under, along and upon that certain property described on Exhibit C hereto, which is made a part hereof by this reference, being a part of that real property described on Exhibit A hereof, for the purposes of stormwater conveyance.

2. South Owner's Grant. South Owner hereby grants and conveys the following nonexclusive, perpetual easement to North Owner to run with and benefit North Owner's Property, and to burden the South Owner's Property: An easement across, under, along and upon that certain property described on Exhibit C hereto, which is made a part hereof by this reference, being a part of that real property described on Exhibit B hereof, for the purposes of stormwater conveyance.

3. Construction of Improvements. Either North Owner or South Owner may commence the design, permitting, installation and construction of improvements for the purposes of stormwater conveyance described above and related improvements, located within the area described on attached Exhibit C, which improvements must be approved by the City of Marysville (the “**Improvements**”). The owner who commences the design, permitting, installation and construction of the Improvements is referred to herein as the “**Improving Owner**.” The Improving Owner shall provide the other owner with copies of the approved plans and specifications for the Improvements, as approved by the City of Marysville, and shall be solely responsible for the cost of construction and installation of the Improvements. Once the Improving Owner commences design and permitting activities, Improving Owner shall continue the design, permitting, installation and construction of the Improvements continually until completed.

4. Maintenance of Improvements. Each party shall be responsible for one half of the costs to maintain, repair and replace (as needed) the Improvements, so as to keep such Improvements in good, safe condition and repair. Notwithstanding the foregoing, if the Improvements are accepted by a municipal or private utility, then the maintenance or repair of

such Improvements shall then and thereafter be borne by the respective municipality or utility with respect to the Improvements accepted.

5. Compliance with Laws and Rules. Improving Owner shall at all times exercise its rights hereunder in accordance with all applicable statutes, orders, rules and regulations of any public authority having jurisdiction from time to time in effect, and in compliance with the plans and specifications for such Improvements as approved by the City of Marysville.

6. Coordination of Activities. The dates of Improving Owner's activities on the other Owner's Property shall be coordinated with such other Owner, and Improving Owner shall provide the other Owner with at least five (5) days' prior written notice of Improving Owner's intent to enter upon the other Owner's Property to commence any activity under this Agreement; provided, however, that in the event of an emergency requiring immediate action by either party for the protection of its facilities or other persons or property, action shall be allowed upon such notice to the other as is reasonable under the circumstances.

7. Work Standards. All work to be performed by Improving Owner shall be completed in a careful and workmanlike manner, free of claims or liens. Upon completion of such work, and any maintenance thereafter, Improving Owner shall remove all debris, and shall replace any corner property monuments, survey references, or other improvements that were disturbed or destroyed during construction.

8. Improving Owner's Use and Activities. Improving Owner shall exercise its rights hereunder so as to minimize, and avoid if reasonably possible, interference with the other Owner's use of the other Owner's Property. Improving Owner shall at all times conduct its activities on the other Owner's Property so as not to interfere with, obstruct or endanger the other Owner's operations or improvements.

9. Default and Remedies. If South Owner or North Owner shall default in the performance of any obligation required hereunder and if upon the expiration of fifteen (15) days after written notice from the other party stating with particularity the nature and extent of such default, the defaulting party has failed to cure such default, and if a diligent effort is not then being made to cure such default, then any non-defaulting party, in addition to all other remedies it may have at law or in equity, shall have the right to perform such obligation of this Easement on behalf of such defaulting party and to be reimbursed by such defaulting party for the cost thereof with interest at the lesser of ten percent (10%) or the maximum rate allowed by law. Any such claim for reimbursement, together with interest as aforesaid, shall be a secured right and a lien shall attach and take effect upon recordation of a prior claim of lien by the claimant in the office of the Snohomish County Recorder. The claim of lien shall include the following: (i) the name of the claimant; (ii) a statement concerning the basis of the claim of the lien; (iii) the last known name and address of the party of the parcel against which the lien is claimed; (iv) a description of the property against which the lien is claimed; (v) a description of the work performed or payment made which has given rise to the claim of lien hereunder and a statement itemizing the amount thereof; and (vi) a statement that the lien is claimed pursuant to the provision of this Easement, including a reference to the recording number of this Easement.

The claim of lien shall be duly verified, acknowledged and contain a certificate that a copy thereof has been served upon the party against whom the lien is claimed, either by personal service or by mailing to the defaulting party as provided in the Section 14 below. The lien so claimed shall attach from the date of recordation solely in the amount claimed thereby and it may be enforced in any manner allowed by law for the foreclosure of mortgage liens.

10. Mortgagee Protection. Any liens authorized or permitted by this Easement shall be subordinate to any mortgage or deed of trust given in good faith and for value now or hereafter encumbering the property subjected to the lien, which mortgage or deed of trust was recorded prior to the recording of the lien, and any purchaser at any foreclosure or trustee's sale (as well as any grantee by deed in lieu of foreclosure or trustee's sale) under any first mortgage or deed of trust shall take free and clear from any such then existing lien, but otherwise subject to the provisions of this Easement.

11. Attorneys' Fees. If any legal action is necessary to enforce the terms or conditions of this agreement, including but not limited to, an arbitration proceeding if agreed upon by the parties hereafter, the prevailing parties shall be entitled to recover from the other party to the dispute all costs of such action or proceeding and reasonable attorneys' fees as determined by the trier of fact in addition to any other relief to which it may be entitled.

12. Release and Indemnity. Improving Owner does hereby release, indemnify and promise to defend and save harmless the other Owner from and against any and all liability, loss, damage, expense, actions and claims, including costs and reasonable attorneys' fees incurred by the other Owner in defense thereof, asserted or arising directly or indirectly on account of or out of the acts or omissions of Improving Owner, or its servants, agents, employees and contractors in the exercise of the rights granted herein; provided, however, this paragraph does not purport to indemnify the other Owner against liability for damages arising out of bodily injury to persons or damage to property caused by or resulting from the negligence of the other Owner or its agents, employees or invitees.

13. Assignment: Successors and Assigns. Except as otherwise provided above, the rights and obligations of the parties shall inure to the benefit of and be binding upon their respective successors and assigns.

14. Notices. Any demand, request or notice which either party hereto desires or may be required to make or deliver to the other shall be in writing and shall be deemed given when personally delivered or when delivered by private courier service (such as Federal Express), when sent by electronic mail with electronic confirmation of transmission, or five (5) days after being deposited in the United States Mail in registered or certified form, return receipt requested, addressed as follows:

RECITALS

A. The real property owned by MPH 1 is described on Exhibit A and may hereinafter be referred to as the "MPH 1 Property", and the real property owned by Sather B is attached hereto as Exhibit B and may hereinafter be referred to as the "Sather B Property".

1

B. The Sather B Property, at the present time, lacks access to the existing public right-of-way, known as 172nd NE Street, Lakewood, Snohomish County, State of Washington.

C. MPH 1 and Sather B, hereinafter sometimes referred to merely as the “Parties” wish to provide the Sather B Property right-of-way access to 172nd Street NE and the right to install utilities for the benefit of the Sather B Property. Therefore, the purpose of this Agreement is to create and establish an easement for ingress, egress (right of way), and all utilities under, through, and across a portion of the MPH 1 Property, as described below, for the benefit of the Sather B Property, legally described on Exhibit B.

EASEMENT

NOW, THEREFORE, for and in consideration of Grantee's covenants and promises contained herein, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Parties agree as follows:

1. **Grant of Easement.** Grantor, MPH 1, hereby grants and conveys to Grantee, Sather B, its heirs, executors, administrators, successors and assigns, and all future owners of the parcel of real property legally described on Exhibit B, a permanent, non-exclusive easement (the “**Easement**” or “**Easement Area**”) over and across the most eastern and northern portion of Grantor's property, said Easement Area legally described on Exhibit C-1 (the “**Easement Area**”), for the purpose of (i) providing ingress and egress necessary for normal automobile traffic, as well as other improvements required for public dedication of right-of-way, for ingress and egress, and (ii) granting to Grantee, its heirs, executors, administrators, successors and assigns and its contractors, agents, permittees and licensees, the permanent, non-exclusive right, privilege and authority to construct, alter, improve, repair, operate and maintain what are commonly referred to as “utilities”, which include, without limitation storm drainage lines, and/or sanitary sewer lines and/or water lines, pipes and appurtenances across, over, under, through, in and upon the Easement. Attached hereto and marked as Exhibit C-1 is the legal description of the Easement Area and Exhibit C-2 is a drawing which depicts, among other things, the Easement Area.

2. **Construction, Repair and/or Maintenance.** The Parties contemporaneously herewith are entering to a “**Street Improvement Agreement**” wherein the Parties, provide for the cost of construction, repair and/or maintenance to any and all of the improvements to be made to the “**Easement**”, with the ultimate goal of dedicating the improvements within the easement and/or right-of-way to the City of Marysville, State of Washington (“**the City**”). The Parties, which intend to bind any Purchaser of the MPH 1 Property, will, pursuant to the aforementioned Street Improvement Agreement, agree to construct improvements deemed necessary to allow for normal automobile traffic and to be able to dedicate said right-of-way to the City, and the placement and/or extension of utilities, as indicated, with the ultimate goal of dedicating said improvements to the City. With regard to the construction of improvements, Grantor hereby grants Grantee, their agents and/or contractors, and their successors and assigns,

access to the Easement Area, in the least intrusive method practicable for the construction, installation, repair and maintenance of easement improvements, including utilities and/or driveway to be installed by Grantee, their agents and/or contractors and their successors and assigns, pursuant to this agreement.

3. **Use of Easement Area.** Grantor shall not interfere in any manner with the easement rights granted to Grantee with regard to this right-of-way and utility Easement, provided that if any construction activities are occurring or planned concurrently within the Easement Area and on any remaining portion of the MPH 1 Property, the owners of the MPH 1 Property and the Sather B Property agree to cooperate in good faith to minimize the disruption or delay that may be caused by concurrent construction activities on the MPH 1 Property. Without limitation, Grantor shall not (1) erect or maintain any buildings, structures or improvements within the Easement Area; (2) disturb the lateral or sub-adjacent support of any roadway, sidewalks, utilities and other improvements and uses of the Easement Area by Grantee, its successors and assigns, or undertake any forms or construction or other activity that may disturb or damage the roadway, sidewalks, utilities or other improvements or uses of the Easement Area by Grantee and/or its successors and assigns; or (3) plant trees, shrubs, or other vegetation having deep root patterns that may cause damage to or interfere with the use of the streets, sidewalks, and/or utilities, **PROVIDED, HOWEVER**, the rights granted herein shall not be considered to interfere with or restrict the Grantor, its heirs, executors, administrators, successors and assigns from the use of the MPH 1 Property located outside the Easement Area for the construction and maintenance of Property improvements outside of the Easement Area.

5. **Permits and Approvals.** All work shall be performed by licensed and bonded contractor(s), performed in accordance with the standards of practice for the jurisdiction in which the work is to be performed.
