To whom it may concern,

I have been a licensed private investigator in Nevada and Arizona for over 30 years.

I was retained by Bret Whipple, Esq. of Justice Law Center to perform a background check of Feng Xu.

The background check involved the use of numerous nationwide databases both public and private.

The subject's name, DOB, SSN and current and prior addresses, as provided, were verified.

I determined that while there were several paid speeding tickets and other traffic tickets listed under his name, nothing more serious was listed.

No current or prior employment information came up under his name or SSN as provided.

Christine Abbott
