Gloria Hirashima invited councilmembers to attend the Vision 2040 presentation at the Planning Commission on July 24. She reported that she attended a very informative shopping center conference along with the Mayor and Kevin Nielsen.

Grant Weed discussed the need for an Executive Session to cover one potential litigation matter, one pending litigation matter, and two real estate matters. There would be action taken on the real estate matters. The entire Executive Session was expected to take ten minutes.

Sandy Langdon thanked the Council for the special meeting on the bond. She reported that it should be in the bank first thing in the morning.

Chief Smith mentioned that the Torch Run for Special Olympics would be coming through the City of Marysville on Thursday at approximately 12:15.

CALL ON COUNCILMEMBERS

Councilmember Rasmussen presented the City of Marysville and the Mayor with a Certificate of Appreciation on behalf of the committee that put on the Cinco de Mayo festival.

She confirmed that Gloria Hirashima had Jeri Short's phone number so she would be notified of upcoming meetings. Ms. Hirashima confirmed that she had Ms. Short's information.

Jeff Seibert referred to tagging issues and asked about the procedure for cleanup. Councilmember Vaughan noted that city employees had cleanup kits. Ms. Hirashima added that the code enforcement officer gets quite a few calls and communications regarding graffiti. He has been working with utilities to address the cleanup. Councilmember Seibert noted that there used to be a booklet used with slips for employees to fill out very easily when they spotted graffiti. He also discussed special paint he knew of that resists graffiti. He wondered if it would be useful on signs. Paul Roberts indicated that they would check on that. Councilmember Vaughan stated that Paul Rochon is aware of some of those products. His main problem is that the graffiti remover he is using is taking the paint off the signs. Councilmember Seibert suggested looking into some alternatives. Councilmember Vaughan commented that the larger scale graffiti is getting cleaned up so quickly that the taggers have resorted to street signs. They realize that the graffiti stays longer on the signs because they are more difficult to replace. Councilmember Seibert asked if Ms. Hirashima had a chance to investigate the numbers of the Wicklow annexation. Ms. Hirashima responded that the Wicklow annexation would definitely be needed for the larger annexation.

Mayor Kendall thanked Mayor Pro Tem Nehring for running the meeting last week.

AGENDA ITEM: Washington Utilities and Transportation Commission Approval of Proposed Improvements to Arlington Spur Railroad Crossing	AGENDA SECTION: New Business
PREPARED BY: Patrick Gruenhagen, P.E., Project Manager	AGENDA NUMBER:
ATTACHMENTS: <ul style="list-style-type: none"> • WUTC Petition • Aerial Photograph and Crossing Channelization Plans 	APPROVED BY:
	MAYOR <i>ADZIC</i> CAO <i>MS</i>
BUDGET CODE: 30500030.563000	AMOUNT: N/A

In January of 2001, the City entered into an Agreement with Burlington Northern Santa Fe Railway for the purposes of widening the “Arlington Spur” railroad crossing of State Avenue. As with the State Avenue project itself, this Agreement contemplated a *phased* widening of the crossing — first to the west by one lane and then, at some future time, to the east by two lanes.

The initial improvements at the spur crossing were completed last summer, by Marshbank Construction as part of the City’s “Phase II” State Avenue improvement project. The City is now poised to embark on the next phase of its State Avenue project, and with it completion of the improvements at the spur crossing. These improvements take the form of the eastward widening shown on the attached aerial photograph.

As was the case in 2001, all improvements at this Public rail crossing fall under the jurisdiction of the Washington Utilities and Transportation Commission. Because of this, City staff has in recent months collaborated with BNSF and WUTC to define and agree to the precise scope and nature of the proposed improvements. The enclosed WUTC “Petition” is the vehicle by which approval is formally sought and ultimately received.

The ultimate crossing configuration is shown in the attachments — consisting of a 5-lane section including two through lanes in either direction and a center two-way left turn lane. Passage through the two-way left turn lane at the crossing will be prohibited, and channelizing devices will be in place to ensure that drivers adhere to this requirement. Other improvements include an upgrade of the east-side cantilever signal, eastward extension of the concrete crossing surface, and installation of a new shoulder mounted signal which will alert pedestrians to the presence of an approaching train. *(The latter is required due to the “skew” of the crossing, and the resulting distance between east side cantilever and the sidewalk’s crossing of the tracks.)* This next phase of work will follow the model established on the previous phase, with BNSF performing all work relating to extension of the concrete crossing surface and installation of warning devices. The City’s contractor will be responsible for all other aspects of the work.

RECOMMENDED ACTION: Staff recommends that Council authorize the Mayor to sign the enclosed WUTC Petition.

In January of 2001, the City entered into an Agreement with BNSF Railway and successfully petitioned WUTC for the purposes of widening the "Arlington Spur" railroad crossing of State Avenue – in conjunction with a planned road improvement project on State Avenue, its primary north-south arterial. As with the State Avenue project itself, the proposed improvements at the crossing were to take place in a phased fashion: the first, completed last summer, involved widening to the west from two to three lanes, and the second phase will involve eastward widening to the "ultimate" configuration.

The City is now poised to embark on the next phase of its State Avenue project, and with it completion of the improvements at the spur crossing. These improvements take the form of the eastward widening shown on the attached channelization plan. The ultimate crossing configuration would consist of a 5-lane section including two through lanes in either direction and a center two-way left turn lane. Passage through the two-way left turn lane at the crossing will be prohibited, and a median will be in place to ensure that drivers adhere to this requirement.

Other improvements include an upgrade of the east-side cantilever signal, eastward extension of the concrete crossing surface, and installation of a new shoulder mounted signal which will alert pedestrians to the presence of an approaching train. (The latter is perceived as necessary due to the "skew" of the crossing, and the resulting distance between east side cantilever and the sidewalk's crossing of the tracks.) This next phase of work will follow the model established on the previous phase, with BNSF performing all work relating to extension of the concrete crossing surface and installation of warning devices. The City's contractor will be responsible for all other aspects of the work. The City looks forward to successful completion of this project, as the planned road and crossing improvements are viewed as key components of Marysville's overall transportation plan.

EXECUTIVE SUMMARY FOR ACTION**

City Council Meeting Date: June 11, 2007

AGENDA ITEM: State Avenue 116 th Street NE to 152 nd Street NE Corridor Improvements - <i>Condemnation Ordinance</i>	AGENDA SECTION: New Business
PREPARED BY: Patrick Gruenhagen, P.E., Project Manager	AGENDA NUMBER:
ATTACHMENTS: Ordinance and supporting Exhibits A-1, A-2	APPROVED BY: 
BUDGET CODE: 30500030.563000	AMOUNT: \$0

The City of Marysville and its agents have begun the property acquisition phase for the State Avenue 116th Street NE to 152nd Street NE Corridor Improvement Project — for the purposes of widening the roadway from its existing configuration to a 5-lane section with curb, gutter, and sidewalks.

Fair market value compensation is being offered to property owners in accordance with recently-completed appraisals. If the City and the property owners cannot reach a mutually agreeable settlement, the enclosed Ordinance will allow the City to exercise eminent domain for the acquisition of property through condemnation proceedings. As noted herein, this Ordinance amends a previously adopted Ordinance – to account for additional property (easement) that will be required to facilitate widening of the Burlington Northern Santa Fe “Arlington Spur” crossing of State Avenue.

RECOMMENDED ACTION: Staff recommends that the Council approve the Ordinance authorizing the condemnation, appropriation, taking, and damaging of land and other property for the improvement of State Avenue from 116th Street NE to 152nd Street NE.
COUNCIL ACTION:

AUTHORIZED TO BE CONDEMNED, APPROPRIATED, TAKEN AND
DAMAGED**

WHEREAS, the City Council of the City of Marysville (hereinafter the "City") finds as follows:

1. Public safety, convenience, use and necessity demand the widening of State Avenue to five lanes from approximately 116th Street NE to approximately 152nd Street NE, together with construction of curbs, gutters and sidewalks and expansion of detention pond capacity, to meet the requirements of increased traffic.

2. By Ordinance No. 2655 passed by the City Council on July 24, 2006, and amending Ordinance No. 2685 passed on February 12, 2007, the City Council approved the condemnation, appropriation, taking and damaging of lands, rights, privileges and other property for the purpose of widening State Avenue to five lanes and constructing curbs, gutters and sidewalks, from approximately 116th Street NE to approximately 152nd Street NE, and expansion of storm water detention facilities.

3. The City has conducted engineering studies and has determined that construction of the State Avenue project requires acquisition of easement rights from BNSF Railway Company over the property described in **EXHIBIT A-1** and depicted in **EXHIBIT A-2** attached hereto and incorporated herein by this reference.

4. The entire cost of the acquisitions provided by this ordinance shall be paid by the following funds of the City:

Fund No. 305 (GMA-Street)

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF MARYSVILLE,
WASHINGTON, DO ORDAIN AS FOLLOWS:

1. Ordinance No. 2655 and Ordinance No. 2685 are hereby amended to add the property described in **EXHIBIT A-1** and depicted in **EXHIBIT A-2** attached hereto and incorporated herein by this reference to the real property that the City is authorized to condemn, appropriate, take and damage in conjunction with the widening of State Avenue.

2. The use of the property described in **EXHIBIT A-1** and depicted in **EXHIBIT A-2** is for widening State Avenue to five lanes and constructing curbs, gutters and sidewalks, which is a permanent public use and is reasonably necessary for the purposes for which it is sought.

3. All lands, rights, privileges and other property lying within the limits of the land described in **EXHIBIT A-1** and depicted in **EXHIBIT A-2** are authorized to be condemned, appropriated, taken and damaged for the purpose of widening State Avenue to five lanes, and constructing curbs, gutters and sidewalks. All lands, rights, privileges and other properties are to be taken, damaged and appropriated only after just compensation has been made, or paid into the court for the owners thereof in the manner provided by law.

4. The cost of the acquisition provided for by this ordinance shall be paid by the following funds of the City:

Fund No. 305 (GMA-Street)

or such other funds as may be provided by law.

5. The City's attorneys should be and hereby are authorized and directed to begin and prosecute the actions and proceedings in a manner provided by law to carry out the provisions of this ordinance, and to enter into settlements to mitigate damages.

	MAYOR 	CAO 
BUDGET CODE: 501186365.359000 (Fleet Replacement Fund)	AMOUNT TBD	

This Ford Shuttle Bus was purchased by Fleet Services in 1994 and it was used to support Parks and Recreation Senior Center activities. The shuttle bus requires all operators to have a Commercial Drivers License (CDL) to drive it. This requirement makes it very difficult for the Senior Center to use the shuttle bus for activities.

Fleet Services has purchased a new used 12 passenger van that all Senior Center staff can drive. This van allows Senior Center staff to use the van at any time and it does not require them to have a CDL.

The Ford shuttle bus in no longer needed and the surplus sale proceeds of shuttle bus will be used to offset the cost of the new used 12 passenger van.

RECOMMENDED ACTION: Staff recommends that Marysville City Council authorize the Mayor to sign Resolution No. ____ declaring items of personal property to be surplus and authorizing the sale or disposal thereof.
