SUBJECT: Fire Flow Test for Quality Auto Center, 15223 Smokey Point Blvd

Water Operations has performed a fire flow test as requested for Quality Auto Center. The results were as follows:

Static: 52 psi

Residual: 50 psi

Pitot: 51 psi

GPM: 1205

GPM @ 20 psi: 5385

The test was performed using Hose Monster equipment with the GPM taken from their flow chart. The GPM @ 20 psi was determined using the hydrant flow test calculator located on the Hose Monster website. Our north end system has a pump that runs periodically depending on system demand. This may increase system pressure 1-2 psi when running. The plant was running at the time of this test.

Any questions please contact me at 360-363-8168 or rkeefe@marysvillewa.gov.
