(Undi Commerce Park)

Dear Mr. Undi:

On October 27, 2021, your agent requested a modification to the scope of work for the above-referenced Nationwide Permit (NWP) 14 verification issued to you on March 4, 2019. The work authorized was to place 900 cubic yards of fill to install a 36-inch diameter and 18-inch diameter culvert in a wetland near Marysville, Snohomish County, Washington. Your agent requested a permit modification to place an additional 400 cubic yards of fill to install two additional 36-inch diameter culverts in an unnamed ditch.

We have reviewed your request and verified that this NWP still authorizes this project provided you ensure that the work is performed in accordance with the enclosed approved modified plans dated October 20, 2021.

This NWP verification supersedes the verification authorized by this office on March 4, 2019. All other terms and conditions contained in the original NWP verification remain in full force and effect. Our verification of this NWP authorization is valid until March 18, 2022, unless the NWP is modified, reissued, or revoked prior to that date. If the authorized work has not been completed by that date and you have commenced or are under contract to commence this activity before March 18, 2022, you will have until March 18, 2023, to complete the activity under the enclosed terms and conditions of this NWP. Failure to comply with all terms and conditions of this NWP verification invalidates this authorization and could result in a violation of Section 404 of the Clean Water Act and/or Section 10 of the Rivers and Harbors Act. You must also obtain all State and local permits that apply to this project.

A copy of this letter will be furnished to Mr. Joe Eaves at

jeaves@INNOVAarchitects.com. If you have any questions, please contact me at amanda.n.nadjkovic@usace.army.mil or by phone at (206) 316-3156.

Sincerely,

A handwritten signature in black ink that reads "Amanda Nadjkovic". The signature is written in a cursive, flowing style with a large initial 'A'.
