Dear Mike:

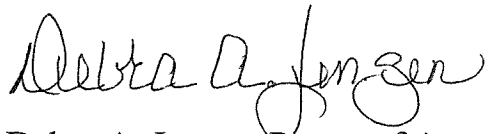

Re: Colvin Property at 3920 Densmore Road, Marysville, WA 98270

I am writing this letter to you to inform you of the burial of two (2) horses on the above mentioned property. One horse was buried about 32 years ago and another approximately 15 years ago.

The location is in the southeast lower pasture. If you were to walk south from the south end of the garage approximately 70 yards, go through the fence gate / tree line, you would be at the burial spot. My husband, Howard, paced off the location on Thursday, December 9th, and marked the spot with orange paint. It should be easily identified. As I relayed to you in our previous conversation, it is an approximate location. It could be 5-10 yards in either direction but if bones are found, they are definitely those of our horses. They will be 12-15 feet deep also as they were buried with the help of a backhoe.

If you have any further questions or concerns, please do not hesitate to contact me at 425.293.6520 or by email at ladyrebel1957@gmail.com.
