
NOTICE OF A SEPA THRESHOLD DETERMINATION OF NON-SIGNIFICANCE

Notice is hereby given that on December 8, 2014 a *SEPA threshold mitigated determination of Non-Significance* was issued for the following proposal: Environmental review to allow the widening of State Avenue from three to five lanes from 116th St NE to 136th St NE. This project is a continuation of ongoing roadway improvements which have occurred over the last twelve years throughout the Smokey Point Blvd/State Ave corridor. The proposed road-widening will occur along a 7,400 foot long section of State Ave from the intersection of State Ave and 116th St NE to State Ave and 136th St NE. The proposed project will widen State Ave from 35 feet wide to 58 feet wide within the project corridor with additional 6 feet of curb and sidewalk area on the east side of the roadway. The project also includes the installation of a stormwater collection and conveyance system for transport to an existing regional stormwater facility. The project will require approximately 3.2 acres of clearing and grubbing. A total of approximately 12,000 cubic yards of material will be excavated and approximately 18,000 cubic yards of fill will be used. There are no known critical areas on or adjacent to the project site. Noise associated with construction equipment and vehicles will be temporary and localized, with varying noise levels throughout the 12-month construction period. Construction noise is exempt from the City of Marysville Noise Ordinance during the day. If nighttime construction were required, noise abatement measures will be required pursuant to MMC, Chapter 6.76. No designated landmarks or evidence of historic, archaeological, scientific, or cultural importance are located on or next to the site. This was confirmed by a formal cultural resources survey conducted by Joan Robinson of Robinson Cultural Resource Services in February of 2003 within the project bounds. If historic or cultural resources are inadvertently discovered during construction for any component of the proposed project, ground-disturbing activity will be halted and the DAHP, the Tulalip and Stillaguamish Tribes, and a professional archeologist will be notified.

The property is generally located between State 116th St NE to 136th St NE within public right-of-way.

| File Number: | PA 14-026 |
| Lead Agency: | City of Marysville |
| Applicant: | City of Marysville Public Works Dept. |
| SEPA Contact: | Cheryl Dungan, Senior Planner (360) 363-8206 |

The lead agency has determined that this proposal as conditioned does not have a significant adverse impact on the environment. An environmental impact statement (EIS) IS NOT required under RCW 43.21C.030(2)(c). This decision was made after review by the City of Marysville of a completed environmental checklist and other information on file with this agency. A copy of the complete determination is available for review upon request.

This MDNS is issued under WAC 197-11-340; and is subject to a 14 day comment period and a concurrent 14 day appeal period. Written comments may be submitted to the lead agency at the address above 14 days from the date of issuance of this MDNS.

APPEALS: This MDNS may be appealed pursuant to the requirements outlined in Section 22E.030.180 MMC, Appeals and Title 22G MMC within 14 days of the date of issuance of this MDNS. Any appeal must be addressed to the Community Development Director, accompanied by a filing fee of \$500.00, and be filed in writing at the City of Marysville Community Development Department.

The decision and complete case file is available for review at City of Marysville, Community Development Department, 80 Columbia Avenue, Marysville WA 98270.
