20. RFA Discussion

Mayor Nehring solicited feedback on the following questions:

1. Is your jurisdiction willing to continue the RFA discussion with the other two jurisdictions? Knowing what you know, do you see enough positive potential for an RFA to be willing to work over the next several months to develop an RFA plan involving all three jurisdictions?
 - Councilmember Vaughan commented that Arlington and the Fire District have both expressed an interest in continuing discussions. He spoke in support of continuing discussions.
 - Councilmember Muller commented that he saw potential for continuing discussions. At the last meeting they started to have some constructive discussion about savings and advantages of putting an RFA together. He hopes that will continue and that they will even possibly speed things up.
 - There was consensus to continue.
2. What values and principles are important to your jurisdiction in this discussion?
 - Councilmember Seibert said he values providing better service or cost savings and that the RFA be sustainable. To him this means they would not have to go to a levy vote every three years.
 - Councilmember Toyer stated his main concern would be the financial stability to make sure that what they create is better than what they have now.
 - Councilmember Norton agreed with Councilmembers Seibert and Toyer. She added that she thinks it is important that the governing structure is accountable and understands the impact of taxation on the citizens.
 - Councilmember Muller commented for the record that the Council has already gone through a very in-depth interview and had a chance to express these items.
3. Are there any process changes you would recommend to make future deliberations more constructive?
 - Councilmember Wright thought it might be helpful to hear from representatives of cities that have become part of RFAs about their

experience. She thought it would also be useful to hear from cities that elected to reject RFAs.

- Councilmember Stevens spoke in support of increasing the frequency of the meetings as long as progress is being made.
- Councilmember Seibert commented that he thought it would be too difficult to add any more meetings and have enough people in attendance due to everyone's busy schedules.
- Councilmember Norton commented that having a work session followed by a regular meeting seems unnecessary to her.
- Councilmember Stevens requested the opportunity to see Arlington's responses.
