In general it costs almost twice as much for undercrossings than overcrossings. The Committee also discussed the possibility of addressing train traffic by modifying train speeds through the City.
- There was discussion about the 1st and 3rd Street LID design which is at 60%.
- There was an update on the Whiskey Ridge and Sunnyside Annexations. The cost to citizens in those areas for utilities has gone down 47% below what they were paying under PUD and Waste Management. This is good news for those residents.

Public Hearings

New Business

6. Consider an **Ordinance** Amending Marysville Municipal Code (MMC) Chapter 12.20 Entitled "Animals and Vehicles on Sidewalk"; Providing for Severability; and Effective Date.

Commander Lamoureux stated that staff had added "Non Motorized" to the title for clarification. The agenda bill was amended to identify and address the concerns of Councilmember Seibert regarding whether or not this covers improved shoulders. He explained that no changes were made to the amendment because it is already covered under the Model Traffic Ordinance and is not required to be part of the sidewalk amendment.

Motion made by Councilmember Vaughan, seconded by Councilmember Seibert, to approve Ordinance No. 2953. **Motion** passed unanimously (7-0).

7. Consider a **Resolution** establishing that Special Market Conditions Exist with Respect to the Purchase of Certain Water Filtration Equipment and Technical Assistance and thereby waiving that Competitive Bidding Occur.

Motion made by Councilmember Muller, seconded by Councilmember Toyer, to adopt Resolution No. 2356. **Motion** passed unanimously (7-0).

8. Consider an I-502 Recreation Marijuana Regulation Alternative Discussion.

CAO Hirashima explained that the Planning Commission had sent forward a recommendation of prohibition of producers, processors, and retailers of marijuana in the City of Marysville. She reviewed other alternatives available to the Council and requested direction from the Council for any further research they would like staff to do or for information regarding the next steps on this item.

Councilmember Muller pointed out that there are currently three bills in the legislature that pertain to this. He asked when those would be concluded. CAO Hirashima stated she expected they would be wrapped up in March. She summarized the subject matter of the three bills.

Councilmember Vaughan commented that it is important to consider what is happening in the legislature. He noted that there is also some uncertainty with the Attorney General Opinion and other matters. Since the Council has time, he recommended studying this further and waiting to see what happens with the legislature and some other cities. He spoke in support of having the Planning Commission do additional study on zoning options as well as staff keeping Council apprised of happenings in the legislature and other legal matters. He pointed out that the City still has time under the moratorium to wait and do further study. He noted that the City has moved expeditiously and is ahead of schedule with the work plan.

Councilmember Stevens asked for clarification about the direction for the Planning Commission. He commented that it seems prudent to have the Planning Commission look at zoning options in the event that other legislation comes down from above.

Councilmember Muller concurred. Even though the Planning Commission's recommendation was prohibition, he thought it would be wise to look at zoning options in case it is necessary in the future.

Councilmember Seibert commented that staff had made recommendations to the Planning Commission for zoning, but didn't see that this was ever completed. He was interested in seeing that as well.

Motion made by Councilmember Muller, seconded by Councilmember Toyer, to continue with the moratorium and revisit this issue in April following completion of the legislation session in Olympia and to send the topic back to Planning Commission for a review of potential zoning plan to be completed by April 1. **Motion** passed unanimously (7-0).
