SUMMARY:

On June 18, 2013 the primary pump drive unit that controls the complete irrigation system for the City's golf Course failed. Distribution of water to the golf course ceased and a new pump had to be installed and calibrated immediately to insure that turf damage was avoided.

Staff worked with service providers in the area that could locate and install all materials and calibrations to repair the system and return water to the course. Due to the timing and magnitude of potential turf damage and associated costs, staff had to act immediately to insure that course assets were protected.

Attached is a Resolution declaring an Emergency and waiving the requirement for public bidding for the installation of water system pump controls for Cedarcrest Municipal Golf Course

RECOMMENDED ACTION:

Staff recommends the City Council authorize the Mayor to sign the attached Resolution of the City Council of the City of Marysville, Washington declaring an emergency and waiving the requirement for public bidding for installation of water system pump controls for Cedarcrest Golf Course.
