

STRATEGIC ENERGY MANAGEMENT (SEM) FUNDING AGREEMENT
PUBLIC UTILITY DISTRICT NO. 1 OF SNOHOMISH COUNTY
and
City of Marysville Water
CW2245300 SEM Marysville Clean Water Cohort

This Strategic Energy Management ("SEM") Funding Agreement ("Agreement") is executed by and between Public Utility District No. 1 of Snohomish County (UTILITY) and the City of Marysville (END USER) for its facility at 80 Columbia Ave, Marysville, WA 98270 (Service Address). The UTILITY and END USER are also referred to herein individually as "Party" and collectively known as the "Parties."

WHEREAS, END USER has facilities in UTILITY's service area and purchases power from UTILITY; and

WHEREAS, UTILITY is a public utility organized under the laws of the State of Washington, and sells electric power to END USER that is acquired from Bonneville Power Administration (BPA); and

WHEREAS, BPA provides funds to UTILITY to pass through to END USER as the END USER implements energy saving measures and completes related activities under the BPA SEM program at END USER's facility; and

WHEREAS, BPA has designated a CWEC Provider (currently Energy Smart Industrial) to work with END USER to identify and implement actions to achieve energy efficiency and potential energy savings and to document energy savings achieved, changes implemented, and if applicable, implementation costs; and

WHEREAS, The Parties agree to enter into a two-year BPA SEM Program engagement, hereby referred to as Clean Water Energy Coaching (CWEC), which emphasizes participation in CWEC training sessions and implementation of low-cost energy efficiency measures.

NOW, THEREFORE, the PARTIES hereby agree to the following:

1. This Agreement is effective upon execution and will continue until the PARTIES' obligations have been met. If this Agreement has not been executed (signed) by END USER and returned to the UTILITY within 30 calendar days of being executed by UTILITY, the terms of this Agreement shall be null and void.
2. END USER shall designate a CWEC "Executive Sponsor" to provide management support for the implementation of this project by completing Exhibit 1 of the Agreement.
3. END USER shall designate a CWEC "Energy Champion" to (a) attend training workshops; (b) coordinate END USER's implementation activities; (c) serve as the primary contact for the CWEC Providers (Energy Smart Industrial Technical Service Providers, Energy Smart Industrial Program staff); (d) implement suitable SEM action items; and (e) track implementation dates and if necessary, associated costs by completing Exhibit 1 of the agreement.
4. If agreed to by END USER and UTILITY, the Energy Champion will oversee the design and installation of a Performance Tracking System (PTS), capable of measuring and tracking energy consumption and energy savings performance. The Energy Champion will track installation costs and provide the data required to complete the PTS Verification Report.
5. END USER agrees to provide BPA, BPA's designated CWEC Provider, and UTILITY with the information necessary to establish and maintain a baseline energy model (Monitoring, Targeting, and Reporting [MT&R] model). The MT&R model will define the pre-engagement baseline and measure the energy savings associated with the implementation of END USER's CWEC program. Necessary information includes electric energy consumption and plant loading data, and may also include natural gas consumption and any other relevant data that would impact electrical energy use.

6. CWEC Training Workshops – END USER shall assign two to four employees involved in the operation and/or maintenance of END USER’s water treatment plant to attend seven CWEC training workshops (Five in Year 1 and Two in Year 2). Each CWEC Workshop will be five to eight hours in duration.
7. CWEC Site Visits – END USER shall schedule one to four (1-4) technical support site by CWEC provider. The site visits shall occur at the END USER’s plant and are intended to provide END USERs with support to identify and implement energy efficiency Action Items. Regular remote technical support will be provided in-between site visits.
8. Action Item Implementation – END USER shall work with CWEC Provider to implement energy efficiency Action Items at END USER’s site between training workshops. END USER shall maintain records of the cost to implement Action Items approved by CWEC provider.
9. The CWEC Provider will work with END USER to compile two annual CWEC Completion Reports (one for each year) that document energy savings achieved, changes implemented, and if applicable, implementation costs. UTILITY will subsequently report energy savings in the BPA reporting system (IS2.0 or its successor). Energy savings will be verified based on the latest revision of BPA’s MT&R Guidelines document and will not include savings from any projects that have received or will receive funding from other BPA or UTILITY programs. Reported energy savings and any associated costs must be approved by BPA in order to qualify for incentives.

Addendum 1: CWEC Program Glossary

1. Energy Champion - The person appointed by the End User to oversee the implementation and compliance for CWEC Program requirements under this Agreement. This person will also be the End User's primary contact.
2. Energy Smart Industrial (ESI) Program Partner – The BPA contractor that administers the Energy Smart Industrial Program in collaboration with BPA.
3. Executive Sponsor - The management-level coordinator of END USER's CWEC activities. The Executive Sponsor's primary responsibilities involve establishing energy savings goals, assigning personnel and monetary resources, and conducting management reviews of energy performance and team activities.
